

We want you as our Mechanical Engineer (m/f/d)

for our subsidiary MAG & More in Munich, Full-time

Who we need at neurocare:

We are seeking an exceptional mechanical engineer to complement our hardware development team, and to design cutting-edge medical device technology. You will be involved in the entire product development cycle from concept to completion, creating products that have direct impact on people's health and quality of life.

What sets you apart?

Hardware development:

- Design, develop and evaluate mechanical and electromechanical products and systems.
- Apply principles of mechanics, thermodynamics, and material science.
- Test product capabilities and specifications.
- Confirm fabrication and installation processes.

Product design:

- Translates requirements by stakeholders into design specifications.
- Assure system and product quality by designing feasibility and testing methods.
- Design for volume production while considering quality, cost, maintainability and scalability.

Risk management:

- Identify potential risks and technical challenges early in the development process.
- Proactively implement mitigation strategies to minimize project disruptions and ensure successful outcomes.

Team and talent development:

- Empower our team by constructive involvement across several development projects.
- Contribute to our positive product and company reputation by open interaction, training, opportunities for skill enhancement, and regulatory compliance.

Your key qualifications:

- Masters's degree (or equivalent) in mechanical engineering.
- Practical experience of at least 4 years in mechanical engineering.
- Superior skills in prototype building, with solid experience in CAD.
- Favorably experience in MatLab and CAM.
- Fluent in English and basic German language skills.

You are important so we offer:

- A versatile job and responsibilities where your ideas are welcome.
- We are a friendly and committed local & international team and we focus on growth through innovation. We live an innovative corporate culture with flat hierarchies and room for personal growth.
- You will receive comprehensive, structured training.
- We offer you an attractive compensation for your reliable service.

neurocare empowers best practice by enabling personalised therapy for mental health. We already treat over 3500 patients p.a. in our own therapy centers and supply third parties with our technologies and services which are all part of our unique digital therapy platform. We are growing strongly.

neurocare has around 170 employees worldwide in the USA, the Netherlands, Australia and Germany. Our head office is in Munich. We offer innovative, sustainable and proven technologies and solutions and are vertically integrated. We not only help to alleviate symptoms, but also to achieve lasting and measurably better clinical outcomes for patients. We live our passion for innovation and are proud of our meaningful work for the benefit of people. If you want to make a difference, join our team!
