### Important Information

Reference:                      Test Date: Jan 2020                      Report Date: Feb 2020

This report provides indications of brain function and cognition as compared directly or indirectly to a normative database. It is not to be used as a basis for action without consideration by a competent relevant professional. Patients should always seek the advice of a trained health professional or relevant specialist regarding any highlighted variances within this report before any treatment or action is taken.

**This report is not intended to be used in any way on its own to diagnose, select treatment or cure any health condition.**

This report does not establish any physician-patient relationship or supplant any in-person medical consultation or examination. Patients should always seek appropriate medical attention for specific ailments.

Patients should not disregard professional medical advice or delay seeking medical treatment as a result of findings contained within this report.

BRC and neuroCare group expressly disclaim any and all responsibility for any liability, loss or risk which may be or is incurred as a consequence, directly or indirectly, of any use and application of this report.

This report and the tests on which it is based are provided by BRC Distribution Pty Ltd ACN 098 619 268. © 2020 Brain Resource Group.
