

# The new standard in depression treatment

Whether you are a first-time user of Transcranial Magnetic Stimulation (TMS) or already have an established practice, Apollo TMS offers superior treatment economics and features helping you to deliver a safe and effective treatment to more patients in need.

## Industry leading short bi-phasic pulse width

Efficient cortical neuron stimulation.

## High performance coil

The high-quality coil does not need routine replacement.

## No pay-per-use fees

Superior treatment economics.

## Easy to use

Intuitive system stores patient settings and completes automated safety checks.

## Designed to help patients feel at ease

Ergonomic chair and streamlined design.

**Made in Germany**  
High quality German engineering

# Industry-leading short bi-phasic pulse-width

Pulse width data sourced from respective FDA 510(k) filings. Membrane Voltage Calculated from: Geddes, LA>, Neurosurgery, Vol 10, 1987, pg 94-99

## High Performance Coil

Achieve high patient throughput with the Apollo's advanced coil technology. The innovative fan cooling design allows operators to deliver continuous TMS therapy sessions throughout the day.

### Apollo – Indication for Use

The Apollo TMS Therapy System is FDA 510(k) cleared for the treatment of Major Depressive Disorder in adult patients who have failed to receive satisfactory improvement from prior antidepressant medication in the current episode (K180313).
